

Second Class SESE

(History, Geography & Science)

SHPE (Social, personal, health education)

May 18th – May 22nd

You will need: A copybook/paper, pencil, colours, ruler.

Ms. N. Fox, Ms. Troy and Ms. C. Fox

Don't forget:

If you would like any of your child's work displayed on the school website , please send it to Ms. Healy, our HSCL: Whatsapp 0877443779 or by email hscl@shkillinarden.ie

➤ Here is the next week of work; take your time and do your best!

➤ *Audio Included in slides*

A quick message from Ms. Fox

Hi everyone 😊 I hope you are all well and keeping safe!

- This week I did a lot of painting! I have been painting fences around my house and trying to make sure the dogs don't stand in the paint tray! I also made a sponge cake, it was yummy 😊
- I know last Saturday was supposed to be your Communion day and you are probably disappointed but don't worry we will work something out 😊 For now just keep safe and enjoy each day in whatever way you can!
- Please keep sending in photos for the website, they make my week 😊

Ms. C. Fox

History – Haunted Houses

Continuing on with our houses and homes theme, this week we will be looking at another type of home; A haunted house!

Haunted Houses are something we might talk about at Halloween!

The Haunted House

Today we will look at this Haunted House! You will be drawing this house and following the instructions on the next slide!

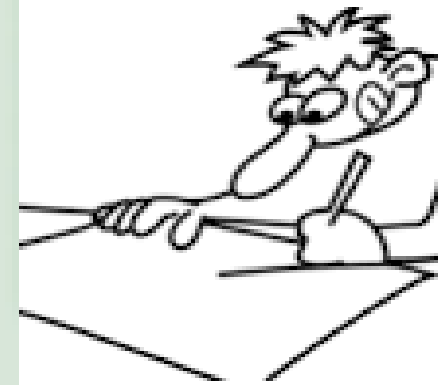

The Haunted House – Drawing instructions

1. Slates are put on the roof to keep water out. Finish drawing the slates on the roof.
2. Windows are made of glass to let the light through. Draw cracks in the windows.
3. Shutters are made of wood and stop light from entering. Draw one shutter, hanging off.
4. Plastic is often used for window frames because it does not rot. Colour the frames red.

5. The walls are plastered grey. Draw a crack from the ground floor to the roof.
6. The steps are made of wood. Wood is flat and smooth. Draw green slime on the steps.

7. Draw a ghost on the metal balcony on the top floor.
8. Draw a chimney on the roof above the balcony. Draw smoke coming from the chimney.
9. The gutters collect rainwater from the roof. Draw clouds and rain in the sky.
10. Draw a red handle on one door and a green knob on the other door. Colour the doors black.

The Haunted House

I have just two questions for you about your Haunted House:

1. Would you live in your Haunted House? (Answer this question with a grown up and tell them why!)
2. Who do you think would live in your Haunted House? Draw them beside it 😊

This is a photo of the 'Phantom Manor' in Disneyland Paris!

Geography – Homes around the world

Last week we had a quick look at homes from different places around the world!

What our homes give us:

- It shelters us from the weather.
- It keeps us safe from danger.
- It is a place for our things.
- It is a place to eat, sleep and play.

Homes around the world

What do you think people's homes would be like in:

Holland

Kenya

Greece

Switzerland

South Africa

Hong Kong

Peru

Australia

Homes around the world

B Read about these different homes. Write the missing words. Use the word box.

kitchen family towns skiing build overcrowded erupted
pool roofs canals view lake tallest wide ground money

1. Holland

Some people live in houseboats on the c_____ in Holland. Houseboats come in lots of different sizes. They have bedrooms, a k_____, a living room and bathrooms.

2. Kenya

Some African people b_____ their homes with mud. A group of mud huts in the same area is called a homestead. Many people in the same l_____ live in a homestead.

3. Greece

The Greek island of Santorini was made when a huge volcano e_____. The people who live on this island built their houses into the cliffs to get a good v_____ of the sea.

4. Switzerland

Chalets in Switzerland are wooden houses with sloping r_____. The chalets are mountain homes for farmers. People who go on winter s_____ holidays often stay in chalets.

Homes around the world

kitchen family towns skiing build overcrowded erupted
pool roofs canals view lake tallest wide ground money

5. South Africa

Townships are like little cities. Houses are usually small and overcrowded. Some have electricity, water and bathrooms. Some are made out of metal and wood.

6. Hong Kong

Lots of people live in apartments in Hong Kong. One of the tallest apartment blocks is called Highlift. It is seventy-five storeys high. Wow!

7. Indonesia

Longhouses are made of wood and sit above the ground on stilts. These ones look like boats. Lots of different people all live in the one huge room inside.

8. United States of America

People pay lots of money to buy townhouses in New York. Townhouses can have up to six storeys, so they have lots of space by being tall rather than wide.

9. Peru

The Uros people of Lake Titicaca live in houses made of reeds. These houses are built on artificial islands (islands made by people) that can move around the lake.

10. Australia

People in Australia live mostly in cities or towns. Most families live in single-storey houses. Some lucky families have a swimming pool in their garden.

Homes around the world

Using the previous slides, answer these questions! Talk to your grown ups and tell them why you chose these answers!

 **Answer these questions.**

1. Which country is your favourite home in? _____

2. Which country is your least favourite home in? _____

Science: Animal Homes

This week we will be taking a look at animal homes 😊

Can you name any animal homes?

Animal Homes

What is a habitat?

A habitat is an animals natural home / place to live in.

- A birds natural habitat is a nest.
- A moles natural habitat is in a tunnel that they make.
- A frogs natural habitat is a pond.
- A bees natural habitat is a hive.

Animal Homes

Animal Homes: Badgers

For this lesson we will be looking at badgers and their habitats!

Have a look at these videos first 😊

https://www.youtube.com/watch?v=KrChYx_sFK0

New Words

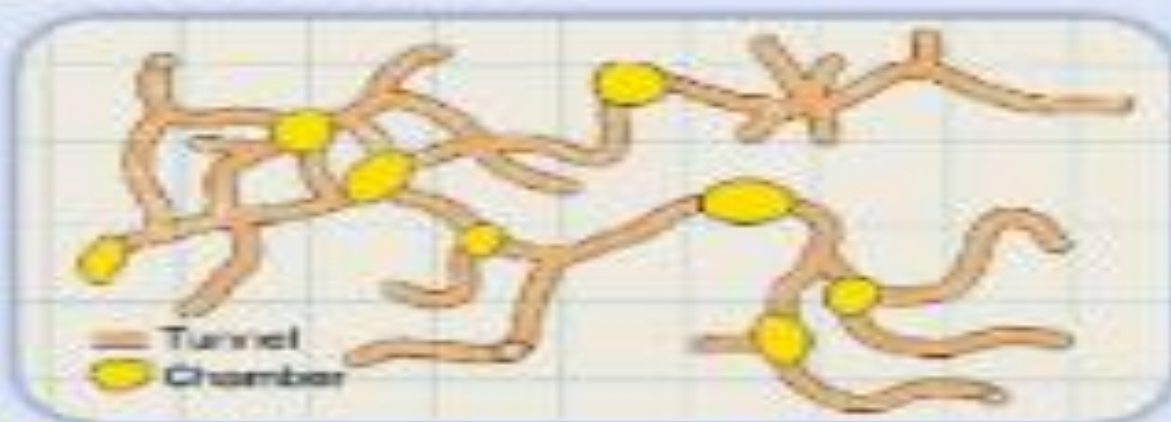

underground sett tunnels regularly bedding chambers entrances

Badgers live in an underground home called a sett. Badgers use their very strong claws to dig out the tunnels for the sett. They build the sett in a hedge, cave or woodland. The sett will have many different entrances.

Badgers live in the sett all year round. They are very tidy and keep their home clean. They use grass for their bedding and change it regularly. They even have an outside toilet.

A family of about twenty badgers can live in one sett, but it is usually home to about five or six badgers. A sett is often used by badger parents, grandparents and great-grandparents. As more baby badgers (cubs) are born, more tunnels are dug. If too many tunnels are dug, the sett's roof falls in.

The biggest sett ever found in Ireland had 250 metres of tunnels and twenty-five sleeping chambers (bedrooms). Most setts are a lot smaller than this. This plan shows a large sett in Co. Limerick. It had lots of tunnels and sleeping chambers.

A Badgers Home

Read the passage on the previous slide and answer these questions in your copy:

- 1. What is the name of a badgers home?**
- 2. Where do they build their homes?**
- 3. What do they use for their bedding?**
- 4. How many badgers can live inside?**
- 5. What happens if too many tunnels are dug?**
- 6. What size was the biggest badger home in Ireland?**

SPHE – Look after yourself!

Here are some ideas you might like to do/ use during this time to keep your mind and body healthy 😊

5 Days of Kindness😊

Your challenge for this week is to do '5 days of kindness!

Each day you write who you have been kind to and what you did to be kind to that person!

CHOOSE
kindness

My 5 Days of Kindness

Each day, I will record what act of kindness I did that day.

Day 1

Who I was kind to?

What did I do?

Day 2

Who I was kind to?

What did I do?

Day 3

Who I was kind to?

What did I do?

Day 4

Who I was kind to?

What did I do?

Day 5

Who I was kind to?

What did I do?

Well done everybody! Have a lovely weekend 😊
