

# SESE- COMMUNICATION

1<sup>st</sup> class- 20<sup>th</sup> April

# Geogrpahy-How do we communicate?

People learn and share information through communication. We communicate in lots of different ways-

◦ **Face-** Sad , Happy , confused.

**Hands-** Thumbs up, Handshake,  
Stop with two hands.

**Phone-** call someone,  
Send them a message,  
Go online

Can you think of other ways which you communicate? Talk with someone else!

# Did you get any of these?

paper

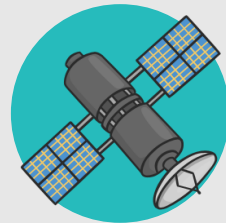

books

magazines

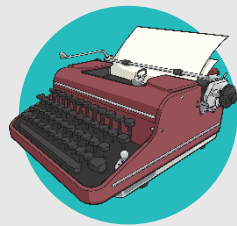

newspapers

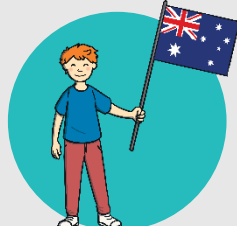

satellites

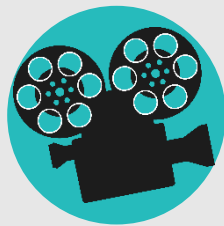

signs

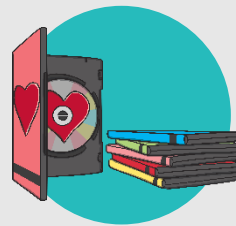

type writer

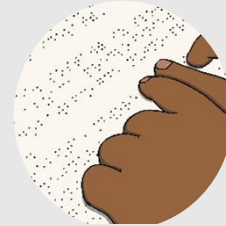

flags

movie

DVD

braille

# History- How we communicated

- Communication was very different long ago. People had different ways of communicating-

Cave paintings

Letters

Carrier pigeons

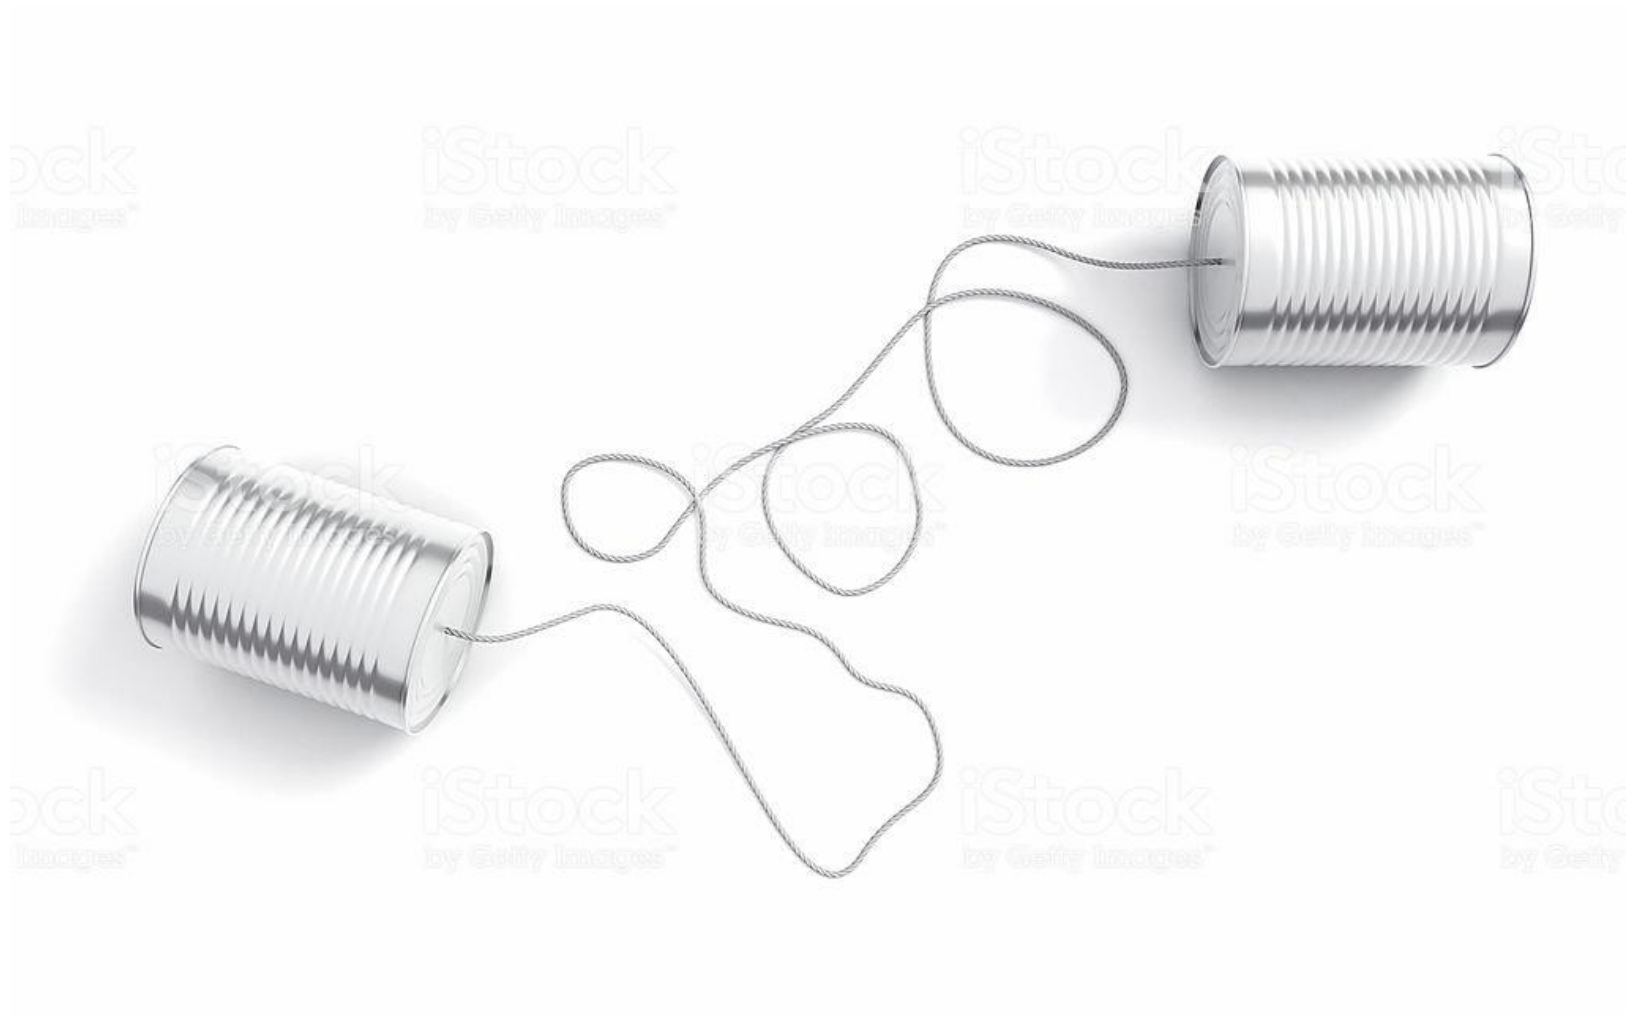

Ask people in your house how they communicated long ago- how many ways did you find?

# Phones- Watch a story about Alexander Graham Bell.

- Phones have changed a lot over the years. In the late 1800s, a man named Alexander Graham Bell invented the first telephone using wire to transmit voices over long distances. Watch a clip about him online here:  
<https://www.youtube.com/watch?v=X8rxszM6amM>
- See if you can find 5 facts about him.
- Ask people in your house how their phones have changed.

## Science- 2 activities

Try the telephone game! See how sound travels

<https://icebreakerideas.com/telephone-game/>

**OR**

Make your own string telephone! (remember always ask someone for help!)
